ABOUT

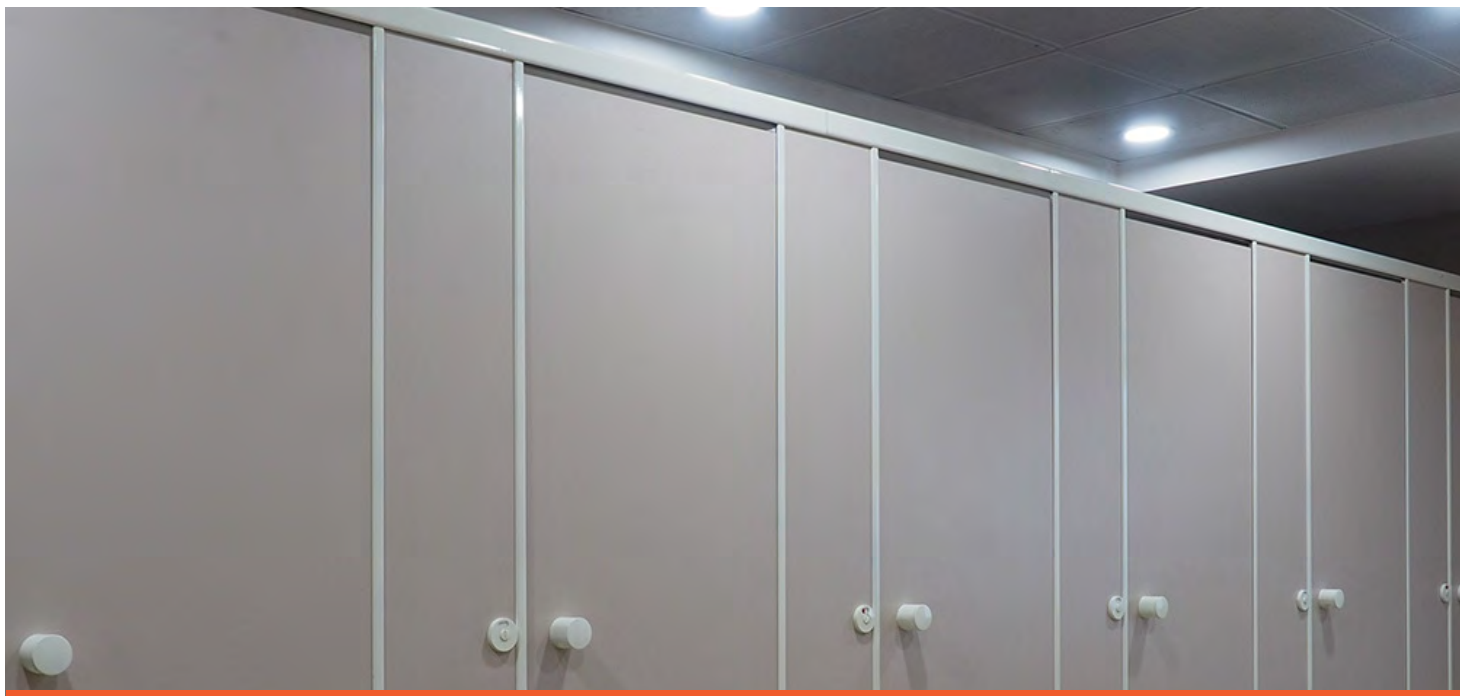

For the last decade, Superfit has been developing hardware for High Pressure Compact Laminate for a wide variety of application of both interior and exterior as structural and decorative building materials. Superfit wins its honor of high quality product performance and long term partnership with its sales network worldwide.

Superfit works closely with world's finest Industrial suppliers for the best International quality. It offers up-to-date decor colors, surface textures, and cutting edge production technologies to get the best results of Quality and Innovation. Today, the company keeps on developing new materials catering for new design concept, cost effect, and ecology. Superfit pays close attention on environmental issues for sustainable growth.
